

HD2-S Robot with Manipulator

HD2-PTZA-322.353.3 Standard Configuration

The SuperDroid Robots HD2-PTZA-322 Surveillance Robot is a large sized, rugged robot that can be quickly deployed in an emergency. Weighing ~120 lbs, this treaded robot is equipped with an arm making it ideal for hostage and hazardous surveillance and inspection, door opening, remote surveillance and EOD disposal.

Images shown may not be an exact representation of the robot's features listed in this document

Robot Specifications

- Enclosed weatherproof treaded robot chassis weighs ~120lbs.
- Robot Run Time: Up to 8 hours.
- Speed: 0 to 4 ft per second, infinitely adjustable/controllable.
- Manipulator arm.
- PTZ 27x Optical Zoom camera mounted on the side mast.
- Total height of 27 inches, width of 22 inches and length of 38 inches.
- Ground clearance of 2.5 inches.

Operator Control Unit

- 2.4GHz high power Digital Radios
- Integrated two-axis joysticks
- 7" touch screen Tablet (with 2-Way audio)
 - On Screen Display for status/information
 - Video recording and image snapshots
- Lithium-ion battery
- Rugged Pelican case style enclosure
- Optional repeaters and secondary monitoring stations.

Included Features and Options:

- **5-Axis arm** – Multi-Axis Arm. 360+ degree Rotating base. The shoulder has a rotation of 180 degrees, the elbow is 140 degrees, and the wrist is continuous. Strong Gripper with ~5inch opening. The maximum arm payload is 20 lbs when fully extended.
- **Camera System** - An integrated 360 degree PTZ camera with 27X optical zoom is mounted to the base of the arm. IR Camera added to the forearm of the robot with video switch.
- **High Intensity LED Lighting** – Remotely operated light mounted to the camera PTZ housing for illuminating dark rooms.
- **Audio System** – Two-way audio to provide audio surveillance and negotiation capabilities
- **Battery Charging** - The chargers are fully automatic and will charge all the batteries simultaneously.

Available Options and Upgrades:

- **Controller options** – We have multiple available radio and controller options. The radio systems we offer are Wi-Fi, digital, and COFDM. For the controller styles we offer rugged handheld and pelican case style enclosures.
- **Repeaters and monitoring stations** – Repeaters and monitoring stations are available to significantly increase the robot's operating range and/or assist second entry teams.
- **Camera Systems** – Fixed front and back cameras can be added to the robot too.
- **Available 6th axis for the Arm:** The arm can be upgraded with a 45 degree wrist tilt (this reduces the wrist rotation from continuous to 315 degree wrist rotation)
- **Removable Release Hitch** – A removable remotely operated release hitch can be added to tow stop strips, etc. and release them.
- **HAZMAT sensors** – If you need to see if the atmosphere is safe, we can install MultiRAE gas sensors including radiation detection.
- **Store and Protect** - Your investment will be protected with a foam lined shipping & transport case.

Applications:

- **Hostage and hazardous surveillance** – Survey hostile/hazardous situations by staying out of harm's way.
- **Opening Doors** – With the multi-axis arm, things like doors will no longer stop you from surveying potentially dangerous locations.
- **Clearing rooms remotely** – Clear rooms and buildings remotely with audio and video surveillance.
- **EOD Disposal** – Our UGV is an excellent choice to keep people out of harm's way when it comes to bomb diffusing and removal.
